

# Mounting instructions

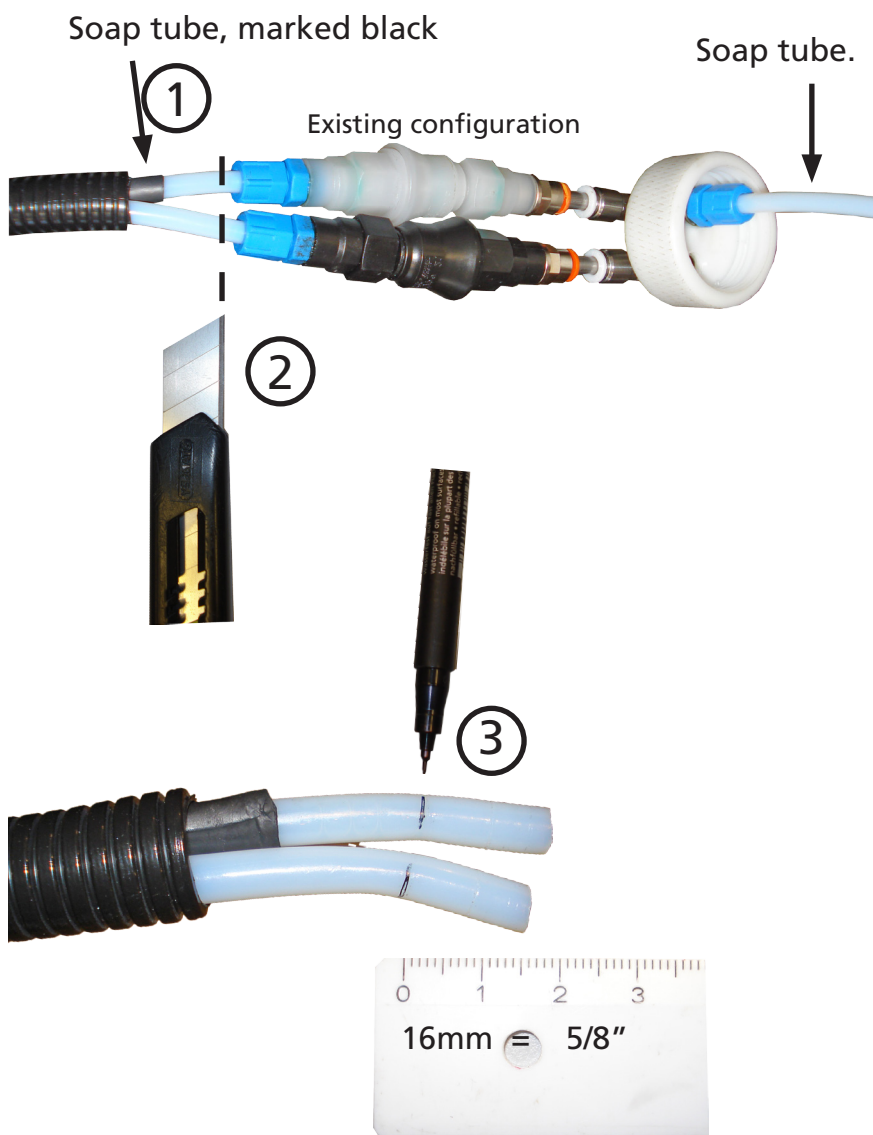

## Multiserie soap bottle cap with swivel

The soap bottle cap has been improved. The new swivel construction makes it easier to exchange the soap bottle.

Note: The colour of the cap can differ according to the country.

Swivel cap  
US part nr.  
9190131

### Description:

1. Check if the black mark is present. Mark with tape or pen if necessary.
2. Cut both tubes close behind the blue connectors.
3. Place a mark on both tubes, 16mm (5/8") from the cutted end.
4. Push the tube with the black tape into the connector with the black tape. Push firmly until the mark (3) equals the connector.
5. Do the same with the other tube.

### Note:

*In case of a mistake, the tube can be removed from the connector by firmly pushing the white ring towards the connector and then pull out the tube.*
